INIS as the largest scientific-academic society in the field of security science in Europe with eminent experts in the field of security, intelligence, geopolitics, international relations and counter-terrorism and over eighty prominent scientists and professors from more than twenty-seven countries, including Slovakia, are members INIS.

This year, in the National Assembly of the Republic of Serbia, together with "Mateja Bela" University of Slovakia, an International Scientific Conference called "Serbian-Slovak Relations" was organized. More than twenty exhibitors, eminent experts from Serbia, Slovakia and S. Macedonia, took part in the conference. The conference was held as announced on March 3, 2022 in the National Assembly of the Republic of Serbia, starting at 10 am, and the conference was opened by N.E. Mr. Ivica Dačić, President of the National Assembly of the Republic of Serbia.

By realizing the conference, we created a "small history" in the relations between Serbia and Slovakia, and through the concept of "scientific diplomacy", cooperation was raised to a higher level.
